This item should be left blank unless a code has been approved and issued by OASAS for a special project in which the program is participating.

No The client was assessed for treatment of their own alcohol or substance misuse problems, not as a Significant Other.

*"Significant Other" means an individual who is related to, a close friend of, associated with, or directly affected by, an individual misusing substances. Substance use disorder treatment should include services to the significant others of those who are misusing substances, in recognition that addiction has a significant negative impact on such individuals. Significant Others may be admitted to the substance use disorder service as individuals, regardless of whether the individual misusing substances is in treatment, or the Significant Other may be treated as part of a family. **If a person is experiencing problems with alcohol or other substances requiring treatment, they should be admitted using their identified status as Significant Other or primary patient/client.***

By regulation, Substance Use Disorder Outpatient programs (Part 822) are permitted to admit Significant Others for treatment services.
