

Integrated Program Monitoring and Evaluation System (IPMES)

IPMES

- IPMES provides OASAS, County/Local Governmental Units and providers with a management tool to monitor, evaluate and improve program performance.
- IPMES Reports are provided for all OASAS-certified treatment programs, funded and non-funded.

IPMES Evaluation Periods

IPMES is based on provider reported data for a 12-month evaluation period.

Evaluation Periods are as follows:

- January 1 – December 31 (Upstate, Nassau and Suffolk Counties programs)*
- July 1 – June 30 (NYC programs)
- April 1 – March 31 (OASAS Addiction Treatment Centers).

*Some Upstate, Nassau and Suffolk County programs may be funded on a NYC fiscal year; therefore, data is based on the NYC Evaluation Period.

IPMES Comparison Groups

- A Comparison Group is a set of programs with similar characteristics based on one or more of the following:
 - program service type
 - patient population served
 - provider’s administrative region
 - program’s geographic location
 - funding status
 - treatment cycle.
- Comparison Group statistics are provided to compare the program’s performance to that of similar programs.
- A comparison group’s 25th percentile value (where no minimum standard may exist) on the IPMES Report is based on the data reported by all of the programs within that group for the evaluation period. These values will fluctuate from year to year.

Flagging on IPMES

The OASAS Integrated Program Monitoring and Evaluation System (IPMES) is designed to monitor treatment program performance and identify areas in which programs appear to be operating below expectations compared to minimum standards and that of similar programs. It applies to both funded and non-funded OASAS-certified treatment programs.

When a program is flagged on IPMES, programs are required to enter a Program Action Report (PAR) into the online IPMES/Workscope system (WPR). The PAR indicates why a program has been flagged, whether the flagging is actually reflective of program problems, and the steps, if any, the program must take to rectify any problems identified.

For more detailed information on both IPMES and Workscopes, please refer to the IPMES/Workscopes User's Manual, 18th Edition, revised April 2015.

Flagging

- Programs are automatically “Flagged on IPMES” if any PAS-48N Monthly Service Delivery reports (MSDs) are missing for the evaluation period.

OR

- a non-Crisis program is “Flagged on IPMES” if performance on three or more indices are below the established or “fixed” minimum standard (or below the 25th percentile where no established minimum standard exists).
- a Crisis program is “Flagged on IPMES” if the performance of one or more indices are below the established minimum standard (or below the 25th percentile where no established minimum standard exists).
- Non-crisis programs that have one or two deficiencies are “Not Flagged on IPMES” but still need to respond with an explanation and corrective action.
- Programs are not flagged during their first year of operation.

Demonstration Indices

- are not flagged;
- are tested over a period of one or more years before the decision is made whether or not to make the index a permanent part of IPMES;
- may or may not become permanent IPMES performance indices as determined by the Measures Development Committee, based on analysis of data;
- must be ‘meaningful and manageable’.

IPMES Deficiencies: PARs and DRRs

- Program Action Report (PAR)
 - programs that are flagged on IPMES are now required to do a PAR online. PARs are automatically created based on the IPMES Report performance.
- Deficiency Response Report (DRR)
 - programs are required to submit a DRR even if not “Flagged on IPMES” (i.e., if a non-crisis program falls below the minimum standard on one or two indices).

See PAR Guidelines for instructions on submitting PARs.

Accessing IPMES/Workscope

- In order to gain access to the IPMES/Workscope System, you must first fill out the OASAS External User Access Request Form (IRM-15) and request Workscope Objective Attainment – data entry.

<http://www.oasas.ny.gov/mis/forms/irm-15.pdf>

- Once the Provider Help Desk establishes account and permissions, you will be able to login to the IPMES/Workscope system at:

In order to have the ability to run an IPMES Report, users must disable pop-up blockers and use a compatible internet browser: Internet Explorer 8 or 9, 10 (in compatibility mode) or Mozilla Firefox.

The screenshot displays the OASAS web application interface. At the top, there is a header with 'New York State' and 'State Agencies'. Below this, a navigation bar contains several tabs: 'Client Data System', 'Gambling', 'Provider Directory System', 'Monthly Service Delivery', 'IPMES/Workscope', 'Impaired Driver System', and 'Help'. The 'Applications' tab is highlighted. A yellow callout box with arrows pointing to the 'Applications' and 'IPMES/Workscope' tabs contains the text: 'Applications and reports open in a separate browser and require pop-ups to be allowed for this website. Click the notepad icon next to each report link for details about the report.' Below the navigation bar, there are several sections. The 'Workscope / PAR Application' section includes links for 'WPR Inbox', 'Workscope Inquiry', and 'PAR Inquiry'. The 'Workscope / PAR Reports' section lists various reports such as 'Program Performance Report', 'Workscope State Report', 'Workscope Report', 'Workscopes Deleted Report', 'Missing Achievement Report', 'PAR State Report', 'PAR Report', 'Comparison Group Objectives Report', 'Comparison Group Program Assignment Report', and 'Objective List Report'. The 'Integrated Program Monitoring and Evaluation System (IPMES)' section features a link for 'IPMES Report'. A light blue callout box with arrows pointing to the 'Applications' and 'IPMES Report' links contains the text: 'Click on the Applications tab, then IPMES/Workscopes sub-tab. The IPMES/Workscopes sub-tab contains IPMES, Workscopes, and Program Action Report functions.' At the bottom, there is a section for 'IPMES / Workscope / PAR Guidelines' with links for 'What's New in IPMES/Workscope', 'IPMES / Workscope Demonstration Indices', 'Workscope Guidelines', and 'IPMES Guidelines'.

Leaving the 'Program' box empty will result in the generation of an IPMES Report for each program operated by this provider. If you want to run the report for only one program, fill in the Program number.

Select the Evaluation Period you wish to run. Evaluation Period is based on the fiscal year your program is on (NYC, Calendar Year (usually upstate), or OASAS ATCs). Selecting an invalid period will result in no data being displayed.

Note: Leaving the 'Exclude Formula Details' box unchecked, will result in the generation of supporting documentation (formulas and notes) for each program.

IPMES Reports are based on data as of the date the data are extracted, not the date the report is run.

The IPMES Report will show both the Evaluation (or fiscal) period and the date the data was “frozen” for extraction.

OASAS generally allows providers additional time to complete reports or correct data through the end of the Evaluation period.

If IPMES reports for all of the provider’s programs are produced, each program will be listed on the cover sheet.

The program was noted as deficient on just one index (Client/Direct Care Staff Ratio) so the note "Not flagged on IPMES" is shown by default. The program must still provide an explanation and correct action, called a Deficiency Response Report (DRR). DRRs are not subject to the County and OASAS approval process.

This non-Crisis program was deficient on three or more IPMES indices [(marked [X]), so “Flagged on IPMES” is displayed. Had the program been deficient on fewer than 3 IPMES indices, “Not Flagged on IPMES” would be displayed.

Both Flagged on IPMES and Not Flagged on IPMES but deficient create a need for explanation and corrective action.

This graph indicates the program was deficient on 1-Month Retention Rate. The graphs indicate “Flagged” when an index is deficient; however, the program may only be required to do a Deficiency Response (in this case the IPMES Report would indicate “Not Flagged on IPMES.”

The program’s performance over the 6-year period stayed slightly below the 25th percentile, except for 2007-08.
